The three days Learning, Teaching, Training Activity (LTTA) of ASSIST project took place in Volos from 23/10 to 25/10/2024 on the premises of the Department of Electrical and Computer Engineering. The activity had the form of an educational event for the participating trainers from Greece and Spain.

Co-funded by the
Erasmus+ Programme
of the European Union

The event was held with great success, and the participants presented during these 3 days a lot of the material that is designed and has just started to be taught to the adult incarcerated learners of the Second Chance School of Domokos.

Meanwhile, on the 2nd day of the activity, a lecture was given by the professor of the Department of Informatics of the University of Almeria, Mr. Antonio Coral, to several students of the department, thus allowing them to get familiar with material from the implemented courses of the project.

Co-funded by the
